

What Our Contractor Clients Think About LCPtracker...

Bonnie J. Farrell
ZOLMAN Construction & Development, Inc:

"I appreciate this info. We are so pleased with the LCPtracker program for this project. It is a snap to learn, and is already saving us countless staff hours, at least half a forest of trees, and a file drawer of storage for the hard copies in our office so far. I cannot even imagine the savings in time, cost & storage for a government agency/district. I cannot imagine anyone having any hesitancy about using this system."

Courtney Cook
GSE Construction

"I just wanted to let you know that Erik Venters (LCPtracker employee) has been nothing but helpful and friendly since signing up with LCP Tracker! He's very informative as well as personable. As frustrating as it sometimes is to transition into something new, Erik made this fairly smooth, and continues to do so. Erik is always available whenever I have a concern or just need clarification. He encouraged me to take a training course via phone conference to further my understanding of LCP Tracker which was very informative. Even with all this, Erik does not hesitate to continually assist me with any other issues that came up as I fumbled my way through this transition! Thank you so much!!!"

Micah Moore
KPRS Construction Services, Inc:

"As a Prime Contractor for a large Fullerton School District project, we are impressed with how user friendly the FM International Labor Compliance Program (LCP) is. The subcontractors can submit their certified payroll directly to the School District directly over the Web. This has simplified the certified payroll submittal and validation process significantly, as well as cut down the amount of paperwork."

Danilo Mayorga, Jr.
Andes Construction, Inc:

"Just wanted to send you guys a quick note to let you know how much I appreciate all your help in setting up our QuickBooks software to integrate seamlessly with your online upload. At first I was hesitant in using it, and now I wonder what I ever did without it. The integration with my Sunburst Software Solutions CPS and your LCP system is seamless and the time it takes to upload and certify my reports is less than it normally takes to print, sign and mail. Thanks again and keep up the good work."
