

## American Recovery and Reinvestment Act Reporting Requirements

Many agencies are going to see a dramatic increase in public works infrastructure construction projects. Things will be moving fairly quickly, with a demand for “shovel-ready” projects to begin soon. With the influx and urgency of these projects, it is imperative to have an efficient way to monitor [prevailing wage, job creation and labor compliance](#).

***The American Recovery and Reinvestment Act (ARRA) requires that you track prevailing wage and job creation and many other elements for all ARRA stimulus projects...***

LCPtracker is committed to our clients and is working quickly to provide as many of the required reports possible or to post predefined forms or Excel spreadsheets on eDocuments for all ARRA required reporting.

1. Reports or Forms Required by ARRA:
2. Monthly Employment Summary-Report
3. Monthly Recipient Project Status-Report 1586
4. Quarterly Project Updates-Excel
5. Grouped or bundled projects-Excel
6. Letting Information-Excel
7. TOTAL ARRA Projects to be funded-Excel
8. Certification Section 1511-Report
9. Certification Section 1607-Report
10. Certification Maintenance of effort (sections 1201(a) and (b))
11. Monthly Employment Job Creation-Report

If you are interested in receiving more information about how we meet the ARRA reporting requirements, please reply to this email or call to the number(s) below.
